

Final Report on Active Silver Content (Ag^+) in Sovereign Silver[®], Bio-Active Silver Hydrosol

Two (2) randomly selected bottles of Sovereign Silver[®] Bio-Active Silver Hydrosol, manufactured by Natural-Immunogenics Corp., were analyzed using validated advanced electrochemical methods to determine their active silver content percentage of Ag^+ (positively charged silver ions).

Analytical Results

Product Name	Lot Number / Expiration Date	Total Silver Concentration (ppm)*	Ag^+ Concentration (ppm or % of total)
Sovereign Silver [®]	DX18 / Exp. 2012-03	10.10	9.62 ppm or 95%
Sovereign Silver [®]	DX32 / Exp. 2012-03	10.40	10.23 ppm or 98%

* Atomic Absorption Spectrophotometry values provided by Natural-Immunogenics Corp.
